Convection steam oven Touch, 20 x GN 1/1 code: 229859

Made of 18/8 stainless steel.
Rounded edges for easy cleaning.
Safety door with opening locks at 60°, 90°, 120° and 180°.
Double-glazed door with LED lighting and gravity cooling.
Right-hinged door.
Durable silicone gasket, easy to replace without service support.
IPX5 water resistance rating.
Adjustable feet for stable and level installation.
Temperature range: 30°C–270°C.
7-inch full-colour TFT touchscreen for setting and monitoring cooking time, temperature and humidity.
Menu available in 42 languages, including English and Polish.
USB port and Wi-Fi for recipe transfer, software updates and HACCP data.
Up to 500 customisable cooking programmes.
GN trays not included.
Additional functions: preheating, holding, cooling, and proofing.
Holding cabinet chamber function.
Delayed start of up to 24 hours.
5 fan speeds and 10 steam levels.
DELTA T cooking mode.
Multilevel Cooking: Allows different dishes to be cooked simultaneously under the same conditions, with notifications when each tray is ready to be removed.
Multi-point Probe: Measures internal food temperature at 3 points for precise cooking control.
Automatic Washing System: 4 cleaning programmes (ECO, NORMAL, INTENSE and RINSING), with up to 30% water savings thanks to the new washing head.

Patented technologies:
- Flow+: Redesigned fan deflector ensures even air circulation and cooking across all tray levels.
- Humid+: Efficient humidification system draws water directly from the fan to maintain optimal moisture while reducing water consumption.
- Dry+: Computer-controlled valve removes excess moisture to regulate humidity inside the cooking chamber. Tray support spacing: 66 mm.
Equipped with 4 fans with automatic reverse rotation for even heat distribution.
Supplied with a pull-out stainless steel trolley for 20 GN 1/1 trays.
Indicative production capacity: up to 400 meals per day, depending on operating conditions.
Compatible with HENDI Trolley code 817643.
