Thermal insulation container code: 707456

Made of black LSP EB Piocelan using moulding technology.
Piocelan is suitable for use at sub-zero temperatures and resistant to mechanical damage.
High thermal insulation for transporting hot, chilled, and frozen food, and for extended storage of chilled and frozen products.
Also used for transporting dry ice at temperatures of around -80°C.
Suitable for direct and indirect food contact.
Can be used with food at temperatures up to 70°C for max. 2 hours or up to 100°C for max. 15 minutes. Depending on the type of food, also suitable for room-temperature storage for up to 30 days.
Complies with legal and hygienic requirements for materials intended for direct food contact.
Internal dimensions suitable for GN 1/1 containers or 600x400 mm trays, depending on the model.
Supplied with a lid.
Integrated handles on the sides.
Lightweight and stackable.

SPECIFICATIONS

Colour	Black	Marketing Packed per	1
GN size	GN11	Internal length (mm)	625
Length (mm)	685	Internal width (mm)	425
Width (mm)	485	Internal height (mm)	300
Height (mm)	360	Usable volume (L)	80
Measurements	685x485x(H)360
