# Insulated portable container – with a tap code: 710333

Container exterior made of 0.8 mm thick satin-finished stainless steel.
Container interior made of 0.8 mm thick high-gloss polished 18/8 stainless steel.
Lid made of 0.6 mm thick satin-finished stainless steel.
Fitted with 2 ergonomic insulated handles, each fixed with 7 welds.
The insulated lid is fitted with a handle and air release valve for easy opening.
Lid seal is profiled and removable for easy cleaning.
The lid is securely closed with 6-8 latches, depending on capacity size.
Bottom fitted with a black rubber rim, this protects the container and makes it possible to stack multiple containers on top of each other.
Designed for catering companies to keep food and liquids warm.
Keeps the content on temperature for up to 6 hours.
Stackable. Tap made of stainless steel.
Spout placed at approximately 45 mm.
