

Single pastry guitar code: 195789

The tool for precise longitudinal and transversal cutting and fast portioning soft confectionery goods, such as ganache, custards, marshmallows, pralines and confection of banquet cakes.

Eye-catching black design: base frame and strings frame made of black anodised aluminium.

Working area and plate made of stainless steel – durability and easy cleaning guaranteed.

Strings made of hygienic surgical steel.

Profiled working area and sharp strings guarantee extraordinary precise operation; cutting with surgical precision.

-  High precision: cutting pastry, cakes, mousses to many even pieces without deforming and tearing - with the help of stainless steel strings placed in various dimensional combinations
-  Simple operating principle enables perfect pastry cutting even for those who are less experienced
-  Easy assembly, disassembly and maintaining hygiene
-  Efficient and effortless applying pastry and taking the cut product off thanks to the stainless steel plate included in the set
-  Complete set – strings with different spacings and necessary accessories

Specially designed hinges made of brass – long product life unlike other products on the market which have hinges made of plastic.

Non-slip feet ensuring stability during operation.

Included in set:

- 1 base measuring 600×400×(H)100 mm,
- 3 cutting frames:
 - 9 strings with 45 mm spacing
 - 13 strings with 30 mm spacing
 - 17 strings with 22,5 mm spacing
- steel plate,
- wrench for changing strings.
