

Gas grill hob, smooth, on a cabinet enclosed on 3 sides code: 220207

Hob made of S355J2 smooth steel.

Base made of 18/0 stainless steel.

2 heating zones, controlled separately, each with 3 tubular multiramp burners made of stainless steel.

Gas power of 1 heating zone: 5 kW.

Temperature controlled by a thermocouple with safety valve that cuts off gas supply to the burners in case the flame goes out.

Electric igniter – connection to 230 V supply required.

The hob is slightly inclined frontwards.

Includes an opening and a slidable drawer.

380 mm high.

Device fitted as standard with NG50 (G30) gas nozzles.

Included: Nozzles for cylinder LPG.

Gas connection in the rear left part, at approx. 550 mm.

Steel feet adjustable: 100 to 165 mm.

- + Excellent for fat-free grilling.
- + The hob is slightly inclined frontwards to make rendered fat flow down during grilling.
- + Each zone operates separately, allowing flexible use and energy efficiency during off-peak times.
- + Electric ignition and integrated thermocouples with safety valves help prevent gas leaks and ensure user safety.
