Sink table with shelf and space for undercounter dishwasher code: 237519

For placement over an undercounter appliance.

Made of high-quality stainless steel.

Worktop is reinforced and deepened, with a 40 mm upstand at the back. Spread load capacity: 70kg/m².

The integrated sink measures 400x400x(H)250 mm, comes with a ø30 mm pre-drilled tap hole.

The reinforced shelf measures 575x585 mm and is non-adjustable.

The legs are adjustable in height to guarantee level instalment (+25/-5 mm).

Spread load capacity: ≈70 kg/m².

Versions available for left- & right-side instalment.

Flat pack delivery, assembly required.

- Made entirely of stainless steel, very durable construction.
- Feet are adjustable to ensure a level instalment.
- Fitted with a large, welded sink of 400x400x(H) 250 mm.
- Easy to construct thanks to the use of bolts.
- Easily fits a dishwasher or refrigerator beneath the worktop.
