

Conveyor toaster code: 261309

Designed for continuous toasting of sliced bread.
Supplied with front and rear trays.
Upper and lower heating elements ensure even toasting on both sides.

Conveyor speed with 3 preset settings for controlling browning level. Wide conveyor fits two slices of bread side by side.

- + Wider conveyor allows more bread to be toasted at once, keeping up with busy hours.
- + Continuous operation supports a steady flow in self-service environments.
