

Analogue thermometer code: 271384

Probe made of 18/8 stainless steel, dial case is 18/0 and 126 mm long.

Analogue display.

Temperature range: 0°C to 300°C.

Unit of measurement: °C.

Accuracy:

± 3°C: 0°C to 75°C.

± 5°C: 75°C to 225°C.

± 10°C: 225°C to 300°C.

Includes a cover with a metal clip.

-  Durable stainless steel probe.
-  Wide temperature range from 0°C to 300°C, suitable for various applications.
-  Includes a protective cover with a metal clip for easy storage and accessibility.

Code	Temperature range	ØxH (W)
271384	0/300°C	#52x(H)140
