HENDI
Tools for Chefs

Warming bridge code: 273593

Housing made of stainless steel.
Equipped with halogen infrared heating lamps.
Separate control for each heating lamp.
Designed for continuous operation during busy service periods.
Compact countertop design.
Detachable construction.
Suitable for plated meals, fried foods, snacks, sandwiches, and other ready-to-serve foods.
Suitable for restaurants, fast food outlets, catering operations, hotel buffets, and open kitchen concepts.

- Halogen infrared lamps provide fast heat-up and direct heat for prepared food.
- Separate lamp control allows more flexible temperature management.
- Detachable construction simplifies transport, storage, and cleaning.
- Compact design fits easily into serving lines and food counters.
