

# Frying pan

627631

Made of durable aluminium, suitable for all heat sources, even suitable for use in ovens. Aluminum offers even heat conduction, the pan is quickly ready for use. The handle is made of epoxy coated steel. The 'Marble' non-stick coating has a high temperature resistance (up to 260°C). The coating is applied in three layers and is wear-resistant. Very easy to clean after use.

## Specifications

|                    |                                                                           |
|--------------------|---------------------------------------------------------------------------|
| Suitable for       | : Gas stove, Induction stove, Ceramic stove, Electric stove, Food Contact |
| Not suitable for   | : Dishwasher                                                              |
| Non stick coating  | : Marble                                                                  |
| Nestable           | : No                                                                      |
