## Induction frying pan code: 629154

Made of cast aluminium, suitable for all heat sources and even suitable for use in ovens (up to 250°C).

Cast aluminium excels at conducting heat.

The handle is made from 18/10 stainless steel and remains cool during use.

The 'Teflon™ Platinum Plus' non-stick coating has a high temperature resistance (up to 250°C).

The coating is applied in three layers which increases the wear resistance and makes the pan ideal for intensive use. Very easy to clean after use.

- + Our best frying pan
- + Superior heat conduction
- + Teflon™ Platinum Plus non-stick coating
- + Suitable for all heat sources
- + Long stay cool handle
