Tools for Chefs

Frying pan Titanium Professional code: 629352

Made of cast aluminium, suitable for all heat sources except induction and even suitable for use in ovens (up to 250°C).

Cast aluminium excels at conducting heat.

The handle is made from 18/10 stainless steel and remains cool during use.

The Whitford® Xylan non-stick coating has a high temperature resistance (up to 250°C).

Adhesion of the non-stick coating is improved by a layer of titanium between the aluminium and the coating.

This double-layer procedure improves the service life of the coating and provides additional scratch-resistance.

Very easy to clean after use.

- + Superior heat conduction
- + Whitford® Xylan non-stick coating
- + Suitable for gas, ceramic & electric stoves
- + Long stay cool handle
- + Easy to clean
