

Grill pan - ridged surface Titanium Professional code: 629802

Made of cast aluminium, suitable for all heat sources except induction and even suitable for use in ovens (up to 250°C). Cast aluminium excels at conducting heat. The handle is made from 18/10 stainless steel and remains cool during use. The Whitford® Xylan non-stick coating has a high temperature resistance (up to 250°C).

Adhesion of the non-stick coating is improved by a layer of titanium between the aluminium and the coating. This double-layer procedure improves the service life of the coating and provides additional scratch-resistance. Very easy to clean after use.

- + Ribbed surface for grilling
- + Superior heat conduction
- + Whitford® Xylan non-stick coating
- + Suitable for gas, ceramic & electric stoves
- + Long stay cool handle
