

Glass washer code: 696064

For self-assembly, intended for sink placement.
Suitable for glasses with 50-140 mm diameter and max. 240 mm height, including German Stein beer glasses (with an ear) or English pint glasses.
Housing made of ABS, brush bristles made of polypropylene.
Middle brush is removable.
Fitted with a rinse system inside of one of the containers – it has jets for rinsing glasses, sprays the inside and outside of glasses at the same time.

With direct water connection – efficiently wash glasses in cold water (below 30°C).
With an overflow – helpful when excess water reaches over the brushes.
Fitted with 4 suction feet made of PVC, ensuring stability.
Included in set: 3/8" water supplying hose with 70 cm length.

-  Fitted with jets for fast rinsing of glasses
-  Cost-effective – low running costs
-  Suitable for most glass sizes
-  Glasses can be used right after cleaning
-  Easy installation, no technician needed, can be portable
