Tools for Chefs

Thermal insulation container code: 707456

Made of black LSP EB Picoclean using moulding technology.
Fitted lid.

Excellent thermal insulation for hot and cold food.

Lightweight construction with high resistance to mechanical damage.

Ergonomic integrated handles.

Stackable.

Internal dimensions suitable for GN 1/1 containers or 600 x 400 mm trays, depending on the model.

Suitable for direct and indirect food contact.

Suitable for storing chilled and frozen food over extended periods.

Can be used with food at temperatures up to 70°C for max. 2 hours or up to 100°C for max. 15 minutes. Depending on the type of food, also suitable for room-temperature storage for up to 30 days.

Complies with legal and hygienic requirements for materials intended for direct food contact.

- + Fitted lid helps retain temperature and protect food.
- + High impact resistance withstands the demands of frequent transport.
- + Ergonomic integrated handles ensure comfortable carrying.
