

Freezing element code: 707760

Made of HDPE.

Contains water and ammonium chloride.

Suitable for thermoboxes.

Keeps the temperature between -15 to -10°C for 4 to 5 hours.

Before use: freeze at -18°C for at least 12 hours or until frozen solid.

To check if ready, shake the element and when you feel and hear nothing moving inside it's ready.

-  Keeps food and beverages frozen for hours, ensuring safe transport and storage.
