

Whetstone code: 820704

Made of white aluminium oxide (corundum) abrasive.
Hard binder construction for increased durability.
Suitable for sharpening knives, razors, chisels and scissors.
For use with water during sharpening.
Supplied with a protective storage case. Designed for sharpening and polishing cutting edges.

White side (#1000 grit) for regular sharpening and restoring edge sharpness.
Yellow side (#3000 grit) for fine sharpening and edge finishing.

-  Using #3000 grit creates a smoother, more refined cutting edge.
-  Dual-sided design with two grit levels for versatile blade maintenance.
-  Comes with a storage case to protect the whetstone.
