

# HENDI

Tools for Chefs

## Lid for GN containers made of polypropylene, with seal code: 881859

Doesn't absorb odours or flavours.

Temperature resistant from -40°C to 80°C. Lid with hermetic santoprene seal; the seal is tight enough to prevent leaking when the container is tilted.

With lip to break the airtight seal for easy opening.

Fits on HENDI GN containers mPolypropylene

- + Airtight seal
- + Leak resistant
- + For storing and presenting food.

| Code   | GN     | LxW (W) |
|--------|--------|---------|
| 881859 | GN 1/9 | 176x108 |
