

Vacuum chamber packaging machine Profi Line code: 975268

For professional use in the catering industry and other industries

For packing food and technical products, including those with a high water content

Durable design – casing and chamber made of high-quality AISI 304 stainless steel

Transparent lid made of durable high-quality ABS plastic makes it possible to control the packaging process

Convex lid make it possible to pack large portions

V-shaped gasket with a low leak rate

Clear indicators (digital display and dial gauge) make it possible to pinpoint the moment when the required vacuum level is reached in the chamber of the packaging machine

Adjustable pump operation time makes it possible to obtain an appropriate vacuum level in 0-99 s

Adjustable sealing time within the range of 0-3.5 s

Adjustable pump cooling level within the range of 0-9.9 s

The packing cycle starts automatically when the upper lid is closed

Oil pump ensures a short and very efficient packing cycle

Pump performance: 133 l/min (975268), or 333 l/min (975275)

Chamber dimensions: 320x370x(H) max 185 mm (975268), 370x450x(H) max. 220 mm (975275)

Net weight: 38 kg (975268), or 62 kg (975275)

To be used with smooth and embossed bags

Code	Sealstrip	V	W	LxWxH (W)
