

Vacuum chamber packaging machine code: 975398

Casing is made of stainless steel.

Chamber is made of Aluminum alloy 5052.

Transparent lid made of ABS.

Convex lid makes it possible to pack large portions.

Bag sealing time: 0-6 s.

6 vacuum levels to choose from.

Sealing only function.

Marinating function: 11 cycles of extracting and releasing air (9 minutes each), allowing marinade to penetrate faster under negative pressure and speed up the process.

The packing cycle starts automatically when the upper lid is closed.

Professional and highly efficient rotary pump.

Intended for continuous operation.

Pump performance: 77 l/min.

Chamber dimensions: 350x300x(H)110 mm

Seal strip is 290 mm long and 3,5 mm wide.

-  Choice of 6 vacuum levels for precise control across different products.
-  Sealing-only mode gives flexibility for quick bag closure without vacuuming.
-  Convex transparent lid allows packing larger portions while keeping visibility during the process.
